

November 2005

Dear Discovering Medieval,

Thanks so much for the fantastic two day workshop you did with our Year 7 classes. Both staff and students really enjoyed the activities and they were the highlight of our Medieval Extravaganza.

Your carefully planned workshops were both fun and educational providing the students with an engaging introduction to life in medieval England. In fact you managed an overview of our entire Medieval Realms course in two hours! The students responded well to the competitive edge, and this helped them really focus on the important content of the workshop.

We really appreciated your ability to provide for us exactly what we needed and help support the evening presentation to parents as well.

I would happily and confidently recommend you to any other History Department. Please use my name and contact details if necessary.

Wishing you the best of luck and hopefully see you next year,

Best Wishes,

Becky Curtis
Head of History
